

PD+ for Talent

Professional Development Plus Training

Interested in PowerSchool training for Employee Records, Perform, Professional Learning, or SmartFind Express? Check out the self-paced training videos, interactive courses, and role-based learning paths in the PD+ training library on Customer Education Campus!

WHAT PRODUCTS ARE SUPPORTED?

- Employee Records
- Professional Learning
- Perform
- SmartFind Express

Use PD+ to learn how to streamline employee record management, educator evaluations and professional learning, and substitute management. Assign videos, courses, or learning paths to train all of your employees on Employee Records, Perform, Professional Learning, and SmartFind Express.

Employee Records:

- Learn how to manage staff employment information in your district, minimize paperwork, and maintain confidentiality with staff records
- Includes role-based learning paths for technical staff, human resources, supervisors/payroll, and direct report roles

Perform:

- Learn how to manage and conduct staff's evaluations and observations to improve teacher support and retain effective educators
- Includes role-based learning paths for technical staff, human resources, supervisor/evaluator, and direct report roles

Professional Learning

- Understand how to provide professional learning for teachers to support career growth with a tool that simplifies planning, tracking, reporting, and collaboration
- Includes role-based learning paths for curriculum director, office/administrative staff, school/district administrator, and teacher roles

SmartFind Express

- Learn how to automate callouts and streamline online substitute management to fill teacher and staff absences quickly
- Includes role-based learning paths for technical staff, school/district administrator, office/administrative staff, and employee roles

Training is a **Scalable** and efficient **Online** training solution

to effectively reach **All District Users**
