

PowerSchool University

PowerSchool's Premier Training Event

PowerSchool University (PSU) helps users take advantage of the robust features and capabilities of PowerSchool solutions through hands-on professional development and access to interactive digital curriculum included with most PowerSchool University events.

Why attend a PowerSchool University?

You'll get award-winning hands-on training

By providing district and site-based staff with hands-on professional development, PowerSchool University PSU provides access to experienced PowerSchool trainers who provide scenario-based training with best practice recommendations.

Choose Your Classes

The PSU course catalog includes more than 100 different courses from which to choose. Classes are organized by solution, level of experience, and role, making class selection easy. Additionally, you'll come away with the curriculum for all PSU classes, including those that you were unable to take.

Earn CEUs and Certifications

Your PSU registration fee includes up to two certification exam waivers (\$500+ value). Additionally, our courses are certified by Lindenwood University, qualifying you to earn valuable continuing education units.

There's something for every user level and role

Select from a wide variety of courses, taught by certified PowerSchool trainers for every user level from novice to advanced and specific to your role. Attend academies to learn how to customize your SIS and use APEX to generate the reports you need.

Find an event that works for you!

PowerSchool University

At this onsite four-day event, take advantage of opportunities to collaborate with your peers in classes, during meals, and at an exciting social event. Attend Open Lab, make a face-to-face appointment with a Support agent, and attend product overviews to learn exciting new solutions to your everyday challenges. Grow your skill sets and advance your contributions to your district.

PSU Remote Plus

PSU Remote Plus offers instructor-led trainings online. With PSU Remote Plus, you'll receive the same hands-on training delivered by our experienced trainers at our onsite event, with the convenience of an online format.

PSU Engage

PSU Engage offers the hands-on training you've come to expect from PSU with a format designed to promote networking with other PowerSchool experts and users. Join us for 2 and 1/2 days of sessions, a networking cocktail reception, information on our latest product releases, and giveaways.

...and more events coming in 2025!
