

Scheduling Theories and Concepts (STAC) Workshop

Two Days. Proven Techniques. Lasting Impact

Building a master schedule isn't just about software—it's about strategy. This two-day, interactive workshop gives educators and leaders the tools and insights to create schedules that maximize resources, reduce conflicts, and meet the needs of students and staff.

STAC 2-Day Agenda

Phase 1: Foundations

Understand the principles behind scheduling and how to plan effectively

Phase 2: Course Tally and Conflict Matrix

Analyze requests and identify potential issues early

Phase 3: Construction

Build a complete master schedule using real-world scenarios

Phase 4: Analysis & Adjustment

Fine-tune your schedule for balance and efficiency

Phase 5: Final Tasks

Prepare for a smooth rollout

“Coming from an all-elementary teaching and support background to leadership in the middle school, and now undertaking the development of a master schedule, this training was invaluable. Having a step-by-step process to follow and what to think about allows a starting point to the process. Thank you!”

Stephanie Berube
North East ISD

Why Attend?

Save Time

Streamline the scheduling process with proven techniques

Reduce Conflicts

Minimize student and teacher conflicts before they happen

Maximize Resources

Optimize staff and facility utilization for better outcomes

The Scheduling Theories and Concepts Workshop teaches you how to plan, organize, build, and evaluate a master schedule for your school. The two-day, interactive workshop will provide the basics needed to build a schedule and ensure:

- Student course selections are satisfied
- Multiple section courses are balanced
- Teacher requests are satisfied

“This is a great workshop as it walks you through the process of scheduling. This is valuable, regardless of the software you’re using; it’s important for us to first be aware of the ‘human’ side of scheduling, the software comes later. This is key for all administrators, especially at the 7-12 levels.”

Randy Lyseng

Ross Shepard High School

Bring This Game-Changing Training to Your Team or Region!

Partner with us to deliver this high-impact workshop designed for anyone involved in the scheduling process. Unlock the scheduling puzzle and positively impact your school and district by attending a workshop in person or online.

On-Site Regional Workshop

\$1,050 per person

Collaborate on-site with other districts from your region. Host a Regional Workshop and we'll invite other districts to join at your location.

Online Workshop

\$760 per person

Join other districts for a collaborative online workshop.

On-Site/Online District Workshop

Give your staff the tools they need with a customized onsite or online session. STAC can be held for your district at a discounted group rate.

By participating in a STAC workshop, you may qualify for one (1) Continuing Education Unit through Lindenwood University.

The concepts discussed in this workshop are not SIS software specific.

For more information about STAC, scan or select the QR code to visit our website, or email STAC@PowerSchool.com to schedule a time to discuss a partnership or receive a quote.
